Alumni Shivendra Kumar Pandey, Working For Women Empowerment in Uttar Pradesh Villages

The principle of gender equality is enshrined in the Indian Constitution as it not only grants equality to women, but also empowers the State to adopt measures of positive discrimination in favour of women.

In spite of admirable work done by both governmental and non governmental sectors, the disparity in numbers between male and female workforce still remains large. In 2012, only 27 percent of adult Indian women had a job, or were actively looking for one, compared to 79 percent of men. Economic contribution of Indian women is less than half of the global average. This trend is more prominent in rural India due to several social, cultural and educational factors.

Raised in a family which is passionate

Vidya Bharati School in India - Bangladesh border strives to grow in spite of challenges faced

School - Anandamayee Ghoshal Memorial Tripuraswari Vidya Mandir, Unakoti, Tripura

schools, particularly at secondary levels, impedes the growth of people living there. Though Indian Government has taken

several steps to develop these areas, a lot is still left to be desired.

Vidya Bharati has been able to successfully run schools in several remote areas, where previously there were no educational institutions at all,

In India, 17 states are located on international borders, which includes Arunachal Pradesh, Assam, Nagaland, Manipur, Mizoram, Tripura, Meghalaya, Uttar Pradesh, Bihar, West Bengal, Sikkim Jammu & Kashmir, Punjab, Himachal Pradesh, Uttarakhand, Rajasthan and Gujarat. The human habitats falling within 0 to 10 KM from international borders are considered as border area settlements.

Social sectors, especially those of education and health, are found to be seriously deficient in infrastructure and systems of service delivery in most of these border settlements. Lack of access to

but faces tough challenges in their road towards advancement. One of such schools is Anandamayee Ghoshal Memorial Tripuraswari Vidya Mandir in Tripura.

Anandamayee Ghoshal Memorial Tripuraswari Vidya Mandir was established in the year 2012 and **located only 200 meters away from Indo Bangladesh Border**. It runs in a donated building, given by a well wishing professor. At present this school runs from classes 1 to 5 consisting of 84 students. Due to lack of space the school is unable to expand, in spite of local support. During heavy rains the ground floor gets flooded with water and the school is forced to stay close during the

period. With the assistance from local community, few amenities like water filters and blackboards has been installed, but a lot more is required.

The principal of the school, Shri Dinendrakumar Pal intends to build a new three story building so that more students can be admitted. He also plans to increase the highest class to 12th standard. With this aim a building

plan was prepared and shared with Tripura State Government since Nov 2017 but no positive response has been received yet.

In spite of all these challenges, the students of this school constantly deliver excellent results each year during examinations and participate in co curricular activities with much enthusiasm.

Student gets opportunity to witness Chandrayaan landing with PM
