## Education must lay the foundation for developing a society that is strongly grounded in ethics and moral values : Vice President

Delivering the 10th Foundation Lecture at SAI International School in Bhubaneswar on 1<sup>st</sup> April this year, the Vice President of India, Shri M. Venkaiah Naidu has said that education must lay the foundation for developing a society that is strongly grounded in ethics and moral values to ensure peace and contentment in life.

Expressing his concern over the all-round degeneration of morals and ethics in the society, Shri Naidu said that the undesirable trend had to be stopped completely and schools were best placed for bringing about such a transformation. He said that education must inculcate social, moral, ethical and spiritual values apart from seeking to empower the future citizens with knowledge and wisdom. 'What is important is your attitude towards fellow citizens, other living creatures, protecting the environment and your commitment towards the larger good of the society', he said.

Referring to the seven deadly social sins mentioned by Father of the Nation Mahatma

Gandhi ji, the Vice President said that education which does not build character was one of such sin.

Saying that schools play the most crucial and foundational role in shaping the destinies of a nation, the Vice President said that schooling must lay emphasis on the overall development of the child without focusing solely on academic achievements. He opined that it was extremely crucial for youngsters to become responsible, caring and empathetic citizens of the country.

The Vice President stressed that aligning the education with the best education pedagogies, teaching methods and techniques in the world, without losing our ethical moorings was necessary to regain India's position as Vishwa Guru.

He advised schools to keep abreast with the latest methods of pedagogy and acquaint the students about the importance of the ancient civilization, culture, traditions, heritage and history of the country. "The understanding of the

history should be complete and comprehensive without any scope for bias," he said.

Shri Naidu advised schools to discard rote method of learning and promote innovative and creative thinking. He said that students must be encouraged to develop an inquisitive and questioning mind ever eager to learn new things and come out with bright ideas.

Shri Naidu wanted schools to keep themselves abreast with the rapid developments in technology and align the skill sets of the students in accordance with 21<sup>st</sup> century job market. He also advised the schools to promote entrepreneurial spirit among the students.

## Vidya Bharati believes that ethical and spiritual education is a must for the overall development of a child

Today's child is the leader of tomorrow. In our education today, the goal should be to inculcate in the child, love and respect for the motherland and ancestral values from the very preliminary stages. It is only through ethical and spiritual education that there would be character development in a child.

The good habits that we want the child to learn and practice has to be repeatedly told. This lesson is first given at home by parents and then at the school by the teacher. It is often seen that today the student gives more importance to what is taught by the teacher than by the parents. And it is here that the role of teachers, in shaping the future of the student, and in turn the future of the nation, becomes so important.

In Vidya Bharati a complete syllabus has been made for value education for all classes, from class 1 to 12.

Moreover, all teachers - be they of any subject, are asked to take care of ethical aspect while teaching.

For example a teacher of mathematics can develop in the student truthfulness, patience and self confidence.

In the same fashion a science teacher can develop in the student

qualities of scientific outlook, adhering to principles, cleanliness, self-study.

In the history class the student can be taught of nationalism, love for the nation, responsibility towards the nation.

## आईआईटी मुंबई का दावा- मप्र का बांचा दुनिया का पहला गांव, जहां सभी 74 घरों में सोलर इलेक्ट्रिक चूल्हे पर खाना पकता है

विजली बैटरी में स्टोर होती है, जिससे तीन बार खाना बनता है  
फिरोज खलीवा | विजु  
मप्र प्रदेश में बैतूल जिले का बांचा गांव दुनिया का पहला ऐसा गांव है, जहां सभी 74 घरों में सोलर इलेक्ट्रिक चूल्हे पर खाना पकता है। यह दावा आईआईटी मुंबई के तकनीकी प्रोजेक्ट मैनेजर विजय कुमार का है। उन्होंने बताया कि भारत में पहले सोलर प्लेट पर भोजन बनता था। लेकिन विदेश रूप से पहले बार बांचा गांव के लिए आईआईटी मुंबई की टीम ने इलेक्ट्रिक चूल्हा तैयार किया है। अब यहां के ग्रामीण चूल्हे जलाने के लिए पैदल नहीं बढ़ते हैं। गांव के सभी घरों में मलिनियर पर ऊर्जा प्लिंट चूल्हे पर खाना बनती है। इसमें पर्यावरण संधान के साथ ही महिलाओं को धुं से मुक्ति भी मिली है। भारत-भारती विश्व मण्डल के मोहन नगर में बसाया केन्द्र सरकार ने पहले में सोलर ऊर्जा को ब्यापक देने के लिए प्रतिबद्धता अर्पित की थी। इसमें आईआईटी मुंबई के विद्यार्थियों ने सोलर ऊर्जा चलित चूल्हे का मॉडल तैयार किया था। इसके बाद इस मॉडल के प्रयोग के लिए बांचा गांव का चयन किया था। मिर्च 2017 में प्रोजेक्ट के तहत गांव में सोलर ऊर्जा लगाने का काम शुरू किया था। विद्यमान 2018 में सभी घरों में सोलर ऊर्जा प्लेट, बैटरी और चूल्हा लगाने का काम पूरा किया। ग्रामीण अन्तर्गत दूरके ने ब्यापक-सम युक्ति के बाद लोगों ने पैदल करने भी बंद कर दिए हैं।

## सार ऊर्जा चालित चूल्हे का सोलर प्लेट से एक दिन में 800 वोल्ट बिजली बनती है

एक सिस्टम की कीमत 80 हजार, संख्या बढ़ी तो लागत भी घटेगी  
पवन कुमार ने बताया- पहली बार में कम मूल्य में सोलर इलेक्ट्रिक चूल्हे बनाने के कारण अभी लगाने 80 हजार रुपए प्रति सिस्टम आई है। यदि चूल्हे की संख्या जम्मा होगी तो लागत कम होकर 35 से 60 हजार रु. के बीच रहने जायेगी। पवन के अनुसार यह सिस्टम पांच लोगों के लिए तीन समय भोजन, चाय और जल आदि टैकअप से बना सकती है। लेकिन दिन के समय में यह डाबोकेट प्लेट से ऊर्जा लेते हैं, इलेक्ट्रिक स्टोरेज फायदा रहता है।  
गांव के एक घर में लग रहे ऊर्जा सिस्टम। इसमें लगे बैटरी में 3 युनिट बिजली स्टोर होती है।  
इससे रात में भी खाना बनाया जा सकता है  
आईआईटी मुंबई के तकनीकी प्रोजेक्टर मैनेजर पवन कुमार ने बताया बांचा गांव में 74 घरों में आईआईटी मुंबई के छात्र-छात्राई द्वारा सौर ऊर्जा चलित इलेक्ट्रिक चूल्हे लगाए हैं। सौर ऊर्जा चलित चूल्हे की सोलर प्लेट में 800 वोल्ट बिजली बनती है। इसमें लगी बैटरी में 3 युनिट बिजली स्टोर रहती है। इस चूल्हे में 5 सदस्यों परिवार में एक दिन में 3 बार खाना बनाया जा सकता है। इस चूल्हे में दिन के समय रात में भी भोजन बनाया जा सकता है।
