Chaitra - Vaishakh | Vikrami Samvat 2081

Vidya Bharati Vigyan Kendra Inaugurated

Education should be used for world welfare: Dr. Mohan Bhagwat

**Realization of 'self' in life and
creation of society based on 'self'**

**New experiments in
Music Subject**

Conceptual Article**Realization of 'self' in life and creation of society based on 'self'**

The basic basis of survival in society is 'self'. If there is no self, then even society cannot exist. For example, the country of Persia is in front of us, there is nothing of Persia in Persia, neither language, nor worship, nor great men, nor texts. They have nothing of their own. Society died due to the disappearance of 'self'. Some Persians are there in Bharat, Tata, etc. and not the one with Greece, Greek Gods and Goddesses, statues, temples, Aristotle, Socrates, Megasthenes, Archimedes, Pythagoras today. If there is no 'self' then the society slowly lags and dies. Bharat survived the attacks of Huns, Yavanas etc. but the attacks of Islam shook us.

Islam tried to destroy our religion and philosophy. Then came the British, French, Portuguese, Dutch, Christians, etc. The French in Pondicherry, the Portuguese in Goa, and the English Christians in the rest of Bharat wanted to destroy us. The long struggle and subjugation for 900 years shook the Hindu society, and many things were destroyed. The situation became such that the body remained, breathing remained, that's it.

Accept what is good, that is, do not be fanatic. But preserving one's 'self' is equally important. External invaders attacked this 'self' of ours. Keeping in mind that many foreign elements entered us. Removed something unnecessary from our language. The first attack was on language. After 1950, many words like telephone – hello were established in our language. Gradually in life, many unnecessary words of English have started entering the language because there is no sense of 'self'.

Shri Sudarshan ji always insisted on signing in Hindi. One should write and speak on a blackboard instead of a blackboard. You can try to remove words from foreign languages while using your indigenous language carefully. We can discuss how this experiment should be done properly.

Food is God's offering. It has mental importance. It's not just food. (Arabic word for food, treasure), cooking food only for oneself is called a sin. Cooking and feeding others are a virtue. भुञ्जते ते त्वघं पापा ये पचन्त्यात्मकारणात् ॥

Shrimad Bhagavad Geeta 3.13. Do you do food mantra while eating at home? Are indigenous food items decreasing? Are bakery items like pizza etc. not increasing? Food is a form of Prasad; food should be accepted as Prasad with purity and sanctity. Not stale. Many types of delicious dishes can be prepared.

Similarly, during puja on auspicious occasion, one should wear suitable clothes and not one's own clothes; on the occasions of Ekadashi fast, Kartik Purnima, Holi, Diwali etc. one should wear clothes as per one's culture.

According to Hindu art, Hindu architecture, Ramakrishna Mission, Bharatiya Vidya Bhavan, Swami Pranavananda, Ramdev Baba, Gayatri Parivar, Ram Mandir have been built or are being built in accordance with Bharatiya architecture. The plans of their houses are being built according to the western model (i.e., no courtyard). A house without a courtyard is their compulsion because it is colder in the Northern Hemisphere, but we live near the Tropic of Cancer, where it is hotter, hence, due to more heat, the courtyard has importance in our Vaastu.

Bharatiya time calculation: The new generation does not know the names of its 12 months and does not know the direction. The birth date of Students should be celebrated on Bharatiya date. We should insist on keeping both the dates on the identity card.

The library, puja room, place for taking off shoes, picture decoration etc. should be as per the tradition. Rangoli, lamp, Tulsi should be visible at the door as soon as you enter. Our feelings towards the sky, the earth, ...

Cont..

the sun, the moon, the animals should be expressed through the conduct of 'self', the essence of behaviour towards the worldly world has been described in our old stories. Hindu's 'self' is mixed with nature, that is why water is called water god, air is called wind god, etc. The one who gives is God, the sun has given light, the earth has given crops, etc. These gods are between God and us. Hindutva is the unity of man with nature.

Our insistence on truth remains constant. Foreign travellers have written, Bharatiya do not lie. Devotion to truth was said to be the specialty of Bharat. Non-violence – therefore should be no violence of any kind, i.e., there should be no violence of speech or mind, this has been our insistence. Frugal life is our 'self'. This culture of thrift is imparted to Students. How to explain the situation of Aparigraha to Students. Excessive accumulation, collection and consumption is not good. This is the root of corruption. There should be less tendency to accumulate, this is the mother of corruption. Sleeping late is no longer a part of the routine. कलिः शयानो भवति संजिहानस्तु द्वापरः । उत्तिष्ठस्त्रेता भवति कृतं सम्पद्यते चरन् ॥ ऐतरेय ब्राह्मण 3.3 ॥ The flow of oxygen to the brain is greater in the morning.

Waking up in the morning, doing puja, remembering God etc. have been the initial part of our daily routine. Taking something out of what you must serve others is 'self'. Take two from what you have earned, this is Bharatiya culture. When wheat is harvested in the fields, distribution of shares to different sections of the society is done. It should be brought to your home later. Women sowing seeds while ploughing sing songs – O Lord, give me a good harvest! She sings while planting paddy – Sadhu, Sanyasi, guest, I will give it to everyone only then I will keep it. Spiritual sense – To explain to Students that we are all one, not two. Bird, bird, cow, buffalo, horse, all are the same. Duality is visible, inside there is non-duality. It is fundamental that the sense of oneness develops. Expansion of unity outside: Mountains, rivers, cities, great men, lyricists, artists, scientists all belong to us. One experiences this greater 'self' only when this sense of unity becomes deeply ingrained. Based on this 'self' the spirit of the country should be established. Unity-Advaita became the language of Bharatiya philosophy.

– **Dr. Krishnagopal (Sah-Sarkaryavah, Rashtriya Swayamsevak Sangh)**

Academic Council and Research Council Seminar

Bharatiya knowledge tradition is the basis of bright future: Babulal ji

Jaipur | Under the joint aegis of Vidya Bharati Bharatpur's Academic Council and Research Council, Smt. Urmilesh and Shri Yashpal Arya Girls Higher Secondary School, Adarsh Vidya Mandir, Jawahar Nagar organized an enlightened public seminar. Main speaker, Prant Pracharak Shri Babulal said that Bharatiya knowledge tradition is the contemplation of all-round development of human being. Bharatiya education believes in the completeness of the annamaya kosha, pranamaya kosha, manomaya kosha, gyanamaya kosha and anandamaya kosha of the human being. In this way the Bharatiya knowledge tradition envisions salvation along with the welfare of all human beings. The goal of Vidya in Bharatiya tradition is "Sa Vidya Ya Vimuktaye" and this is our ideal. Remembering these traditions, we are striving to build a golden Bharat and will succeed in it.

In this transition period, every citizen of Bharat must strive for self-awareness. We must stand with self-respect while remaining free from the mentality of slavery. Chief guest Shri Mahant Balak Das said that we should consider the three debts we have. While presiding, Prantiya Sanghchalak Shri Mahendra Singh Maggo said that every citizen of the society should strive for family enlightenment, environmental protection, religious awakening, and ...

Cont..

social harmony. Becoming an informed citizen is the greatest service to the country. Prantiya Sah Mantri of Vidya Bharati Shri Vijay Singh Faujdar, District Convenor of Vidya Parishad Shri Amit Rakwar, District Convenor of Research Council Dr. Yogendra Bhanu, District President of Bharatpur Professor Brijesh K. Gupta, District Administrator of Vidya Bharati

Bhartpur Shri Mohan Aggarwal, Bharatpur department union-leader Shri Bhagirath, district union leader Shri Satish Bhardwaj, area head of Dharma Jagran Shri Amar Singh, school administrator Dr. Sunil Gupta, etc. were present. It was conducted by Shri Santosh Katara, District Mantri of VB. About 105 Karyakarta were present from different places.

Programs held in Vidya Bharati schools on Nav Varsh : *Some glimpses*

सृष्टि सृजन का शुभदिवस, करे धरा श्रृंगार, भरे हर्ष नव ऊर्जा, शक्ति का संचार।

शक्ति का संचार नए तरु लगे सुहाने, मधुर पुष्प मुस्काय, गा रहे पक्षी गाने।

चली सुगंधित पवन, प्रभु की पावन दृष्टि, करे लोक कल्याण, पुनः शुभ सुंदर सृष्टि।

Alumni Group Meeting, Dausa

International Dance Day

Agra | On International Dance Day on 29 April 2024, the classical dance Kathak was performed by about 500 girl students under the aegis of Ganesh Ram Nagar Saraswati Balika Vidya Mandir.

Inauguration of Vidya Bharati Vigyan Kendra

Education should be used for world welfare: Dr. Mohan Bhagwat

Hyderabad | Vidya Bharati Vigyan Kendra, Nadergul, Hyderabad, Telangana was inaugurated on 28th April 2024 by the Sarsanghchalak of Rashtriya Swayamsevak Sangh, Honorable Dr. Mohan Bhagwat and Sri Sri Tridandi Chinnajiyar Swami. Sri Sri Tridandi Ramanuja Chinnajiyar Swamiji said that if education is used properly, Bharat can soon become unique. Bharatiya should invite everyone and go everywhere but should not forget our roots and ways. One should not abandon Sanatan Dharma. Shri Ram had said that standing in favor of Dharma (religion) is the highest Dharma (religion).

Sarsanghchalak Dr. Mohan Bhagwat said that inaugurating this international school is a part of Sangh service. We provide education thinking that all people are the same, even if they are different. Education is not just about subjects but also about self-knowledge. The world is a mystery and knowing that mystery is education. Education should be used for world welfare. If the soul is pure then education will develop. Even after starting an international school, we are instilling a sense of patriotism in Students through education. Our food, hymns, our traditions are reflected in foreign countries also. Instead of going abroad in the name of holidays, go on a pilgrimage like Ayodhya. We should give these values to our students. Only then will it be useful for world welfare. Dr. Mohan Bhagwat said that it is untrue that the Sangh does not support reservation.

If people need a reservation, they will keep the reservation and the organization will do its work.

If people need a reservation, they will keep the reservation and the organization will do its work. On this occasion, Akhil Bharatiya Prachar Pramukh of RSS Shri Sunil Ambekar, Kshetra Pracharak Shri Sudhir, Sah Kshetra Pracharak Shri Bharat, Vidya Bharati Kshetra Adhyaksha Shri Uma Maheshwar Rao, Kshetra Treasurer Shri Pasarathi Mallya, Prant Executive Shri Mukkal Seetharamulu and Sangathan Mantri Shri Patakamuri Srinivas Rao etc. were especially present.

14 acres of land donated for the Vigyan Kendra.

Vigyan Kendra President Shri Telukunta Ramesh honored those who contributed to the construction of the building. Shri Vishnuvardhan Raju, Secretary of the Vigyan Kendra, said that Bhimidi Yashodamma and Pentareddy had donated 14 acres of land for the school. Out of this, one acre has been allotted for homeless women, named "Vaidehi Ashram". Aurobindo Pharma has donated Rs 1.22 crore to build a fully equipped kitchen. 60 thousand square feet of land has been allotted to the nursery.

Laid the foundation stone of Vidhyaranya International School

Sarsanghchalak Honorable Dr. Mohan Bhagwat also laid the foundation stone of Shri Vidhyaranya International School, Bandlaguda Jagir. This is the second International school. The book "Ivvadamlon Anandam" written by Sri Lingam Sudhakar Reddy Garu, Kshetra Sangathan Mantri of Vidya Bharati was also released. He said that this book has been written not only on his experiences but also on the advice of others.

Educational Experiment**New experiments in Music Subject**

New experiments done in the subject of music in Saraswati Bal Mandir, Rajouri Garden, Delhi affiliated by Vidya Bharati and their impact on the students.

Music is one of the important subjects among the five basic subjects in the schools run by Vidya Bharati Akhil Bharatiya Shiksha Sansthan which is compulsory for every student in every school. Vidya Bharati is committed to the all-round development of students. Therefore, music plays an important role in this direction. Vidya Bharati has prepared a syllabus for singing and playing music class. Through the activities required in the Vandana session of the school, there is awakening of devotion, faith, love, goodwill, patriotism etc. in the students along with personality development.

Some new experiments were conducted about music among the students of Saraswati Bal Mandir, Rajouri Garden School of Vidya Bharati Delhi Prant, the effect of which was as follows -

1) Syllabus: - The course is divided into two parts. One part is related to the Vandana session, and the other part follows the classical and experimental nature of music. In Rajouri Garden School, the students of a class are distributed in three groups during the music period, that is, the student chooses one among singing, playing, and dancing as per his interest and learns that genre throughout the year for which three rooms and three music teachers have been appointed in the school. The complete curriculum of music has been distributed keeping in mind the holidays and periods in the 12 months of the year.

The book **Sa Re Ga Ma Pa Dha Ni** is mandatory for students. In which general information about classical and experimental aspects of music is available. By preparing the students according to this curriculum, their ability to know and understand music has developed. About 60-70% students take full advantage of it. Every year there is an opportunity to learn three Akhil Bharatiya songs as well as songs from the five Prants falling in the Poorvottar Kshetra. Due to which the students also get the opportunity to get acquainted with the Prantiya languages around them and their musical styles. Students have more desire to learn songs in these languages. There're about 60 musical instruments in the music room for playing, due to which students get enthusiastic about learning musical instruments. Similarly, in the dance hall, 20-20 pairs of 25 ghungroo strings for the infant category, 50 ghungroo strings for the child category and 20-20 pairs of 100 ghungroo strings for the teenage category have been included. Along with this, props material for folk dance has also been arranged so that the students can get full benefit. This experiment conducted by the Music Department has not only given the students an opportunity to learn art as per their interest but has also increased their skills, courage, and self-respect.

In the Vandana session, Ekatmta Mantra, Ekatmta Stotra, morning remembrance, Shri Hanuman Chalisa recitation, Manas Prasang, Ashtadashshloki Gita, Panchang, thoughts, motivational stories, national anthem, national song etc. developed devotion among the students and developed the basic stream of Bharatiya culture and the great personalities of Bharat. The instinct to connect and learn from life develops. For all the above material, Archan Vandana book has been made mandatory for every student. To enable the students to pronounce Saraswati Vandana, Ekatmta Mantra, Ekatmta Stotra, etc correctly, big Sanskrit words are divided into small parts and written in their copy, because of which the students can pronounce them correctly. **Cont..**

2) To promote musical instruments in schools:

This is a new experiment done in the last few years. Whereas earlier only musical instruments like harmonium, tabla, dholak, congo were included, today many modern and western musical instruments have also been included in the school such as: -

- a) Tantra instruments: - violin, guitar, etc.
- b) Wind instruments: - flute, melodica, mouth organ etc.
- c) String Instruments: - Ghunghroo, Scraper, Happy Drum, Drum, Chimes, Xylophone, China Block, Cajon, Shaker, Maracas, Tambourine etc.
- d) Avandha instruments: - Dhol, Tasha, Jambé, Duff, etc.
- e) Electronic instruments: - Synthesizer, Tanpura etc.

The inclusion of the above instruments has increased the students' interest in music. Through this, they have got the opportunity to know and play Bharatiya musical instruments as well as Western musical instruments and their nature, structure, use, etc. Guitar is a western instrument, on which our students' played ragas like sitar and D.O.E. received high praise in the competition. That is, playing Bharatiya music on western instruments was a new experiment.

3) Competitions: - Participation in Prantiya and departmental competitions: For the last 7 years, competitions have been organized dvibhag-wise due to which 12 group and 12 individual awards were distributed in four departments. Except the dance competitions, all the western departmental and Prantiya competitions were organized in the Keshav Auditorium of the school, because all the musical instruments and sound system arrangements have been made well in this school. This is also a new experiment from which students get full benefit. The presentation of program is excellent.

The benefit of the above competitions was that the number of students participating in them increased significantly and students participated enthusiastically. This experiment increased the development of both the teacher and the students.

4) With the increase in the number of musical instruments, the level of Vandana has become

more beautiful and stronger.

5) Efforts have been made to connect students with new technology. There are some instruments which can be played by the app like Harmonium App, Guitar App, Tanpura App, Lehara Studio App, Taal App etc. Efforts have been made to connect students with such musical instruments. Also, providing an opportunity to learn singing, playing, and dancing by sharing videos based on music education made by Acharyas through YouTube channel and appropriate videos from other channels is also a new experiment., which many students take advantage of.

7) At the beginning of the session 2023, a video recording of an album "Prarthana Ke Swar" was sent to the society through YouTube by the Acharyas in which Acharyas from different subjects participated.

8) To give information to the students about Bharatiya musical instruments and to introduce them to their playing style, a 30-minute program is organized from time to time in the Vandana session by specially invited artists, so that the students develop the inclination to learn those instruments.

9) Seven-day festival "Udaan" organized on Amrit Mahotsav of Independence in schools run by Vidya Bharati as well as schools run by other government and non-government organizations in Delhi was popular which every day, along with collective singing of patriotic songs, our students presented different singing styles and competitions were organized among the students at schools coming from outside. Classical music, sub-classical music, folk songs, musical instruments, classical and folk-dance competitions were organized in the programme. The program started with Swagatam and the festival concluded with a dance drama "Bharatiyam" on the seventh day. The main attraction of which was to show a glimpse of the journey from the first voice raised for independence till the present in which about 800 students including teachers ensured their participation. Through this experiment, many students took new steps in the field of music with new thinking and technology.

10) As a result of the inspiration ...

Cont..

of Principal Bela Mishra, Manager Rachna Dhanda and the efforts of the teachers, a musical dance drama of about 45 minutes based on Lord Ram was presented on Dussehra which was appreciated in Delhi. With the influence of this program, next year a complete Ramlila will be organized by the students in which about 900 students ensured their participation. The school keeps doing such experiments from time to time.

11) One benefit of doing such new experiments and inviting intelligent people of the society in the programs is that our students would be invited to the programs of other organizations and given presentations due to which there would no limit to the enthusiasm, hard work, dedication, and interest in music of the students.

11) One benefit of doing such new experiments

and inviting intelligent people of the society in the programs is that our students would be invited to the programs of other organizations and given presentations due to which there would no limit to the enthusiasm, hard work, dedication, and interest in music of the students. Many schools educated students today are earning their living by taking music as their base and are bringing glory to themselves, their parents, teachers, and the school by nurturing good values in the society through music. Therefore, in the future too, by carrying out similar new experiments, the Acharya who nurtures the goal of Vidya Bharati will continue to play an important role in the progressive development of his students in the subject of music.

-Dr. Avnish Tyagi (Ph.D. & NET - Music)

(Musician) S.B. Md., Rajouri Garden, New Delhi

Annual Planning Meeting of Madhya Bharat Prant

Inspire to read other books along with the subject: Shriram Aaravkar ji

Shivpuri | The three-day annual planning meeting of Madhya Bharat Prant was organized at Saraswati Shishu Mandir, Kedardham, Shivpuri. On behalf of the university, all these 80 participants were honored by IGNTU Vice Chancellor Shri Prakash Mani Tripathi by presenting them citations.

In the next sequence of the tour program, they worshipped at the Narmada temple in Amarkantak and visited the residential Saraswati Higher Secondary School. To know the importance of Gulvakavali in Medicinal Nursery of Forest Department and Mai Ki Bagiya in Amarkantak. School administrator Shri Adarsh Dubey, Principal Shri Satish Singh, yoga instructor Harshita Dubey, Acharya Santosh Shukla etc. were present in the excursion program along with 60 Students.

Seva works by the Acharya Parivar of Mainaguri Sarada Shishu Teerth in the cyclone devastated villages in Mainaguri Dharampur and Varnish area of Jalpaiguri district of West Bengal on March 31, 2024.

Workshop on "Punyabhoomi Bharat"

Teaching should be according to Bharatiya culture: Archanatai

Nagpur | Keeping in mind the need of teacher training and to introduce Bharat as 'Bharat', a workshop on the topic "Punyabhoomi Bharat" was organized by Vidya Bharati at Utkarsh Vidya Mandir. In the workshop, former Principal of DD Nagar High School, Smt. Archanatai Jainabadkar said that teaching should be in accordance with Bharatiya culture. Akola department union leader Narendra Deshpande gave information about great men,

saints, revolutionaries, social reformers, pilgrimages, advanced places of science, etc. Metropolitan Vice President Dr. Sanjay Ghatate presided. The introduction was laid by Prant Sangathan Mantri Shailesh Joshi and conducted by Randeep Bisne. The vote of thanks was given by Prantiya Sah Mantri Roshan Agarkar. Metropolitan Minister Sandeep Panchbhair, Metropolitan Sah Mantri Ankesh Shahu and about 150 Acharyas were present in the program.

Vishay Pramukh Meeting

Plan based on national education policy for the implementation of the subjects

Jharkhand | A one-day subject major meeting of Vidya Bharati at Saraswati Vidya Mandir Shri Banshidhar Nagar was jointly inaugurated by Akhil Bharatiya Mantri Brahma Rao, Vice Chairman of Vidya Vikas Samiti Satishwar Prasad Sinha, Prant Mantri Ajay Kumar Tiwari, and President of the school Jokhu Prasad. Vidya Bharati Akhil Bharatiya Mantri Brahma Rao said that the Vishay Pramukh and Sah Pramukh are the architects of the implementation of a total of 30 subjects including five central subjects and four dimensions.

Our job is not only to implement our subjects in a school but also to guide how education should be in our like-minded organizations.

Prant Mantri of Vidya Vikas Samiti, Jharkhand, Ajay Kumar Tiwari said that we all must implement our subjects keeping in mind the National Education Policy. It is expected that arrangements for training etc. for this should be made under the direction of Vishay Pramukhs. Vishay Pramukh should make plans based on the National Education Policy for the implementation of their respective subjects. Our education should be society and nation centric. Vidya Bharati Upaadhyaksh Satishwar Prasad Singh said that the young generation should take higher education keeping in mind their culture so that it can be beneficial for the society and the nation. Poornkalik Karyakarta Akhilesh Kumar, Phanindranath, Rajesh Prasad, Omkar Prakash, Suresh Mandal, Vivek Nayan Pandey, Tulsi Prasad Thakur, Ramesh Kumar, and Brajesh Kumar Singh etc. were present in the program.

Newlyweds Conference

Becoming a parent is a spiritual responsibility - (Divyanshu Bhaji Dave, former Vice Chancellor Students University, Gandhinagar, Gujarat)

Satna | A grand event of newlywed couple's conference was held on 22.02.2024 in Nanaji Deshmukh Auditorium of Saraswati Shishu Mandir Nagaud.

Chief guest Hon. Shri Divyanshu Bhai Dave (Former Vice Chancellor Students University Gandhinagar Gujarat), the program was presided over by Shri Rajkumar Acharya (Vice Chancellor Awadhesh Pratap Singh University Rewa) and special guest Dr. Anupam Tamrakar (Assistant Professor, Delhi Ayurvedic Medicine), Shri Prabhat Singh (Assistant Professor, Delhi Ayurvedic Medicine). Kshetriya Shishu Vatika Incharge), Dr. Rajan Saran Srivastava (Chairman Nagaud Child Welfare Committee), Smt. Anjana Tandon (Vice Chairman Nagaud Child Welfare Committee) were present on the stage.

In the preface of the program, Vice President of the school, Smt. Anjana Tandon, while presenting, said that among the sixteen sacraments, all the sacraments are essential. The best married life is possible only with the coordination of spirituality and science based on the Bharatiya philosophy of life. In his speech, the chief guest of the program, Shri Divyanshu Bhai said that we should worship God in the form of a child. To have good students, he said that becoming a parent is a spiritual responsibility. He said that one cannot become a monk without being a householder. Every human being is indebted to three types of debts - God's debt, Rishi's debt, Pitra's debt. It is very important to repay it in some way or the other, and to have a healthy child, it is very important for the body to be healthy. For this, exercise, yoga practice, purification activities,

yogic diet, good speech, good attitude, satsang and listening to music are very important three months before conception. He said that a mother should not be stressed under any circumstances.

In his presidential address, Dr. Rajkumar ji Acharya (Vice Chancellor APSU Rewa) said that to make life happy, there is a need to have good children. He said that we know God but do not believe in it, if we do not believe in our society, our nation. If you want to make something better, you will have to make sacrifices for it. Expressing gratitude to the guests invited in the program, the administrator of the school, Shri Chandan Aggarwal said that this center will prove to be the foundation stone for all the newlywed couples present in this event. For this, consultations will be given by doctors every month, the benefit of which all the newlyweds will be able to avail by joining the school. This is a very beneficial work for them. In this event of newlywed couple's conference, the presence of distinguished citizens of the city, mother power, sisters of Shishu Vatika group of the Prant and the principal of the school and the entire Acharya family was commendable. The program was successfully conducted by the ECCE Principal of the school, Smt. Shalini Tripathi. 125 newlyweds registered and 45 newlyweds i.e. 90 were present.
